SISFUR Symposium

Creative Recycling Systems
E-scrap is the fastest-growing component of the municipal waste stream

- 130,000 computers are thrown out everyday in the United States

- Experts estimate that by 2010 Americans will discard 400 million electronic units annually
THE SOLUTION...

∞ State-of-the-Art Technology

∞ Public/Private Partnerships

∞ Customer Focused Solutions

∞ Reuse / Recycle

∞ The Creative Way........
